OVER 50 YEARS OF QUALITY, SERVICE AND PRICING YOU CAN DEPEND ON

**THREE GENERATIONS
A FAMILY BUSINESS
COMMITTED TO QUALITY
AND VALUE**

Dear Customers,

Delvie's Plastics is happy to offer our latest catalog. Our business principals are the same as when we first started our operations, we are in business to serve our customers. We offer excellent pricing, quality materials and timely delivery on all of our products.

Delvie's Plastics gives you a full 100% guarantee on all of the products we sell.

We have complete confidence in all of our products. If you are ever unhappy with any product that you purchase from us simply call us and we will arrange for its return.

We understand that budgets are tight and programs are changing. We have added some new products and to help with tight budgets we offer some of the most competitive pricing around.

We have an excellent inventory of products in our large warehouse in Salt Lake and we pride ourselves on our excellent delivery schedules. The next time you require supplies, information or service call us toll free. Our well trained, helpful staff is always ready to be of service.

We appreciate your support and your letting us serve your needs. If you have any comments, questions or ideas to help us better serve you, please let us know.

Sincerely,

The Delvie's

DELVIE'S PLASTICS IS KNOWN FOR FAST FRIENDLY SERVICE. We try to ship all orders within 48 hours of receipt but during our heavy season (August - November) we experience longer delays. If you have any questions about shipping dates or need a rush order please call us on our toll free line.

SCHOOL AND INSTITUTIONAL ORDERS: Orders are shipped PREPAID by the fastest and least expensive method. SHIPPING CHARGES ARE ADDED TO YOUR INVOICE SO THAT YOU GET ONLY ONE BILLING. Orders less than 70 lbs. are shipped via United Parcel Service, heavier orders are shipped via Common Carrier.

CASH ORDERS ARE WELCOME: Please add sufficient funds to cover postage, insurance and handling. Please add 15% to total of order to cover the above.

CASH AND CREDIT CARD ORDERS: We will accept personal checks for any order. However checks will be held up to 10 days for clearing prior to shipping materials. Certified check, Visa, Master Card and Discover orders are shipped at once.

INVENTORY: Most items in our catalog are in stock ready for immediate shipment. If an item is out of stock we will ship your order and BACK ORDER the item or items and advise you of a new shipping date.

CREDIT TERMS: Net 30 days on all school and institutional orders.

SAFE ARRIVAL: We take great care in packing and shipping your order. Please inspect all shipments upon arrival. Check the bill of lading to see that the number of packages we shipped have been received before you sign the bill. If you have any shortages or damage, note on your freight bill BEFORE you sign it. Notify the freight company of damage or shortage AT ONCE. Then contact us so that we can replace the item or items. Claims and Damage must be filed on your end.

YOUR COMPLETE SATISFACTION is our main concern. If you are not satisfied with our material or service please let us know so that we can correct the problem.

We always try to maintain current catalog prices. There are times however when price increases take us by surprise and we find it necessary to increase pricing. Prices are subject to change without notice. If our current pricing exceeds your purchase order by 10% we will notify you prior to shipping.

We are always open at www.delviesplastics.com

ACRYLIC PRICING

Delvie's Plastics offers only cell cast acrylic sheet, the highest quality available. Unlike extruded grades, FF or MC, cell cast sheet will not melt when cutting on a table or band saw or while gang cutting. When polishing, only cell cast sheet will polish to a high luster. All sheets are paper masked, both sides. Don't look for "better or lesser" grades of acrylic sheet from Delvie's. We offer only the best products at prices matching the economy grades of our competitors. When you think of acrylic think Delvie's.

Please take advantage of our half sheet and full sheet pricing, we offer free cutting for shipping purposes.

MASKED COLORLESS (CLEAR) ACRYLIC SHEETS

Note: Acrylic sheet is made in metric sizes, we list actual thickness

Normally we cut full sheets to 24" x 48" for shipping. When ordering please be advised that UPS will take a single shipment up to 150 Lbs. and the largest sheet size of 36" x 48". We will cut larger sheets for UPS shipment at no extra charge. If you have any questions with shipping or ordering please call us toll free at 800-5DELVIE.

Can we cut your sheets to ship on UPS? This often saves money on shipping charges. Call us if you have any questions. Order full or half sheet and have us cut it for UPS shipment at no charge. A real money saving value.

Acrylic Sheet Colors

Translucent colored acrylic sheet

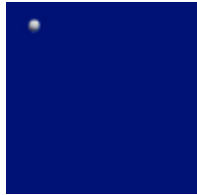

Translucent acrylic sheet will let light through but you can not see through the sheet.

Our 2025 black and 2418 are opaque sheet, light will not come through the sheet.

When making light tables use or 2447 white, it lets the greatest amount of light pass through the sheet.

SQUARE CLEAR ACRYLIC TUBING

Square clear acrylic tubing with 1/8" wall. Available in 6 Ft. lengths only.

1/2" x 3/8" 1/16" Wall (Sqtube-500)	4.50/Length
3/4" x 5/8" 1/16" Wall (Sqtube-750)	6.00/Length
1" x 7/8" 1/16" Wall (Sqtube-1000)	8.00/Length

Note: All 72" lengths listed on this page will be cut to 36" lengths (no charge) for shipping unless you tell us to ship in 72" lengths. There is an extra shipping charge of \$7.50 for shipping 72" lengths.

AMBER SCREWDRIVER HANDLE STOCK

Amber screwdriver handle stock. Ideal for making screwdrivers, hand drills, mallets, chisels, trowels, lathe turning tool handles, knobs, and other projects. Turns well on lathes and is machinable. To make a screwdriver handle just cut our screwdriver handle stock to desired length. Shape the handle using a file or lathe and drill a hole in the top of the handle. Heat the metal blade to approx. 400 F and press it into the hole. When the blade cools it will set tight. Order fluted for easy gripping or round for mallet heads.

SIZE	PRICE PER 48" LENGTH	PRICE PER 8 Ft. Lengths
3/4" Dia. - 6 Flute (SHS1)	\$2.00/Ft (SHS2)	\$1.85/Ft

NORTON WET AND DRY SANDPAPER

Wet/dry sandpaper is the best choice for sanding acrylic sheet prior to buffing the sheet. Depending on how smooth the sheet is after cutting, start with a 200 or 300 type grit, move to a 400 or 500 grit and finish with a 600 grit paper. Then polish the sheet with any other our compounds and wheels listed on this page. Each sleeve is 50 sheets of paper.

5 or More Sleeves

18.50/Each

Confused with all of the different types of buffing compounds we carry? See our web site www.delviesplastics.com for a complete description of all of our compounds.

PLASTIC CLEANERS

It is essential that acrylic sheet receives proper care. Acrylic is a very soft material that scratches easily with improper care and handling. Delvie's Plastics offers several excellent waxes and cleaners that reduce or eliminate scratching of the sheet. As you probably know, acrylic sheet is like a magnet for dust and grit because of the static it creates. All of our cleaners and polishes are anti-static to resolve this problem. No shop working with any plastics should be without some sort of anti-static cleaner or polish.

KLEENMASTERS BRILLIANIZE

For years one of the most widely used and safest cleaners on the market. One of the best cleaners made. No harmful chemicals or ingredients. Anti static cleaner-polish for Plexiglas, Lexan, and other plastics including fiberglass.

8 Oz. Spray Bottle (BRILLIANIZE-8OZ)	\$3.75
Gallon Jug (BRILLIANIZE-GALLON)	17.00

MASK OFF

The paper protective masking on acrylic sheet after time or exposure to sunlight welds itself to the sheet. We have found that the best formula to remove the paper is Mask Off. Simply apply Mask Off to the paper, let sit for several minutes and peel the paper off as if it were never stuck. Don't throw away the old acrylic, use Mask Off and save time, effort and money. For removing stubborn paper masking from plastic sheet and glass.

Quart Can (MASKOFF)	\$10.00
---------------------	---------

STONER CITRUS FRUIT CLEANER

Stoner Biodegradable Cleaner/Degreaser. Our new A500 is no wimpy cleaner. In fact it's a powerful, industrial-strength degreaser that's great for cleaning built-up, baked-on residue from molds, tools, machinery and other equipment. It's ideal for use on metals and other hard surfaces. Dissolves inks, oils, and other greasy dirt. Afterwards, it dries quickly and leaves no residue behind. A500 is made entirely from a highly refined extract of citrus fruits. This environmentally-friendly, all-natural cleaner is completely organic and biodegradable.

NOVUS PLASTIC CLEANERS

We make our living working with acrylic sheet and the best cleaner and polish we have found is Novus. Glass breaks and plastic scratches, but not if it is taken care of. Any program using acrylic sheet should know how to care for it. With proper care, acrylic will last for years in just about any application without surface defects or scratching.

NOVUS #1 To Clean and Protect

Gently cleans all plastics without scratching. Leaves a lustrous shine that resists fogging, repels dust, and eliminates static. Our #1 Novus polish gives all hard glossy surfaces a "like new" shine that lasts. It works fast, without smearing, and without the labor associated with conventional polishes. The result is a clear smooth, greaseless shine.

8 Oz. Bottle with Spray (NOVUS1-8)	\$4.25
64 Oz. Economy Refill (NOVUS1-64)	12.50

NOVUS #2 To Restore and Refinish

Removes fine scratches, haziness and abrasions from most plastics. With repeated use, #2 restores faded and discolored plastics. Restores the finish by removing the damage, instead of filling it in. And because it buffs out quickly - you get the results you want without the labor you'd expect. After removing the damage #2 seals and protects the restored surface with a layer of polish. The result is a deep shine that resists scratching, marking and aging.

No offensive odors or toxic risks. #2 is safe to use in high-volume industrial setting or at home.

8 Oz. Bottle (NOVUS2-8)	\$5.25
64 Oz. Economy Refill (NOVUS2-64)	18.50

NOVUS #3 To Repair and Prepare

Removes heavy scratches and abrasions from most acrylic surfaces. Use when damage is too severe to be restored with Novus #2 polish. Requires use of Novus #2 for final finishing.

8 OZ. Bottle (NOVUS3-8)	\$7.50
64 Oz. Economy Refill	27.00

To Remove Heavy Scratches: 1st - Remove surface dirt and dust with NOVUS #1. Shake Novus #3 bottle well and test in an inconspicuous area. Apply Novus #3 liberally. Use a clean, soft cloth, polish with a firm back-and-forth motion at right angles to the scratches. Keep the cloth saturated with polish at all times. Continue polishing until only fine scratches remain. Using the cloth, remove all remaining polish, this is very important! Using a clean cloth, apply Novus #2 in a circular motion uniformly to entire surface. Polish using light pressure until Novus #2 dries to a light haze. Using a clean portion of the cloth, buff the surface clean. Follow with Novus #1 for best results.

Important Points to Remember: Before attempting to clean or remove scratches, always make sure the plastic is cool to the touch. Use a liberal amount of plastic cleaner to safely remove surface dust and dirt. In addition, test scratch removers in a small or inconspicuous area for compatibility. Some plastics are coated with a thin film which may be damaged by the abrasives in the polish. Novus #2 and #3 are not recommended for use on eyeglass lenses.

FABRICATION SUPPLIES

Delvie's Plastics offers a complete line of buffers, buffing wheels, cutters, saw blades, etc. for acrylic fabrication. Fabricating acrylic is fun, educational and keeps students interest. If you have any questions about projects, how to do something, or just need ideas to start a plastics program at your school just call us on our 800 toll free number. Our experienced, helpful sales staff is always there to help you.

BUFFING EQUIPMENT

Do you want to polish acrylic sheet? A buffer is a necessity and Baldor makes the best buffers in the world. Baldor, the industrial buffer. Consistent high quality and dependability has kept Baldor #1. Iron Clad 3 Year Warranty. U.L. listed and C.S.A. certified. Designed to meet and exceed OSHA safety requirements. Optional accessories. Delvie's Plastics recommends a 1800 RPM Baldor buffer for all school shops. Model #114 A great value for the school shop. This buffer is a 1/4 HP, single phase with a idle speed of 1800 RPM with a 1/2" Shaft.

(BALDOR-114)

\$220.00

Model # 332B Our 300 series are 3/4 HP powerful buffers for high use shops. Single Phase, 3/4" Shaft, 1800 RPM.

(BALDOR-332B)

\$430.00

BALDOR GRINDERS

115 Volt, 1 Phase, 60HZ. Our slim design of motor provides extra clearance for grinding odd-shaped pieces. Two piece tool rest permits vertical and horizontal adjustments - can be tilted for angle grinding. UL Listed/CSA certified. Designed to comply with OSHA standards under normal usage. Wheels are 6" x 3/4" x 1/2", guard on both sides. Center wheel distance 12-1/4", supplied with 8 ft., 3 conductor cord with 3 prong plug.

#612, 1/3HP, 1 Phase, 3600 RPM idle.

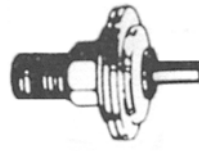

(BALDOR-612)

\$210.00

Buffing acrylic sheet is easy and produces crystal clear edges from rough saw cut edges. Using a Baldor buffer, and our buffing wheels, produce the finest edges possible. Delvie's suggests that you use our Baldor buffer turning at 1800 RPM. First, use our sanding paper to sand the rough saw cut edge. The better the edge the better the final result. Use our 240 grit, then 400 and finally 600 grit paper. Then use our Baldor buffers to produce the crystal edges. With the wheel turning touch the buffing compound to the wheel for no more than 5 seconds. Run the rough edge of the acrylic against the turning wheel moving the sheet back and forth so as not to "burn" the acrylic. With a little trial and error you will be able to get excellent results.

Try our industrial size buffing compounds at great savings.

1/2" ARBOR ADAPTER

Convert your electric drill into an electric portable buffer. Our arbor adapter fits into any chuck then holds and secures a 1/2" hole buffing wheel.

Each (ARBOR) \$4.75

SABER SAW BLADES (2 PACK)

Saber saw blades cut so smoothly that the edge of the acrylic can be polished. Package of two saber saw blades for cutting acrylic - one for material up to 1/8" thick, and the other for material thicker than 1/8".

#1106016 (SABER-SAW) \$4.90

PRECISION HIGH SPEED PLASTIC DRILLS

Are you having problems with drilling acrylic sheet? It tends to chip, crack and craze if you are not using the correct drill bits. If you do any fabricating you will need our drills for acrylic. For use with hand, power drills and drill presses. Professional drills, no chipping, no cracking, no grabbing due to our unique 90 degree point and 0 degree rake. Reduced shank to 3/8" on sizes 7/16" and 1/2"

FIBERGLASS RESIN

#4110 FIBERGLASS POLYESTER LAMINATING RESIN

Our best laminating resin for boat manufacturing, boat repair, auto repair, covering

wooden water tanks, etc. This is an all purpose, thick non-sag formula ideally suited for repairing and rebuilding fiberglass bodies. It strengthens, waterproofs and protects fiberglass, wood and metal. Cures quickly to a hard, non-sticky surface. Hardener included. Use with fiberglass cloth. All prices include hardener.

Quart Can with Catalyst (4110-QT)	\$16.00
Gallon Can with Catalyst (4110-GAL)	40.00
Case of 4 Gallons with Catalyst (4110-CASE)	135.00

Resins should be stored in a cool place and all resins should be used within 6 months of purchase.

(NOTE: No UPS hazard fee applies to this item)

EXTRA MEK-P CATALYST

Extra catalyst for curing polyester resins.

PLEASE NOTE: MEK Catalyst is Methyl Ethyl Ketone Peroxide and should be kept out of reach of children. Students should be closely supervised when using this product. Always wash hands with soap and water after using the catalyst. A doctor should be called immediately if someone should swallow this material or get it in their eyes.

1/2 Oz. Bottle for Quart (CATALYST-5OZ)	\$1.75
2 Oz. Bottle for Gallon (CATALYST-2OZ)	2.50

Note: Please make sure that all students are well supervised when working with all of our resins. Protective gear and especially goggles should be worn at all times when mixing and using resins.

FIBERGLASS CLOTH

7-1/2 OUNCE VOLON FINISH

A medium weight fiberglass cloth that is excellent for repair or mold making applications.

60" Wide (FIBERGLASSCLOTH-YD) \$9.00/Yard

FIBERGLASS MAT

2 Oz. Heavy Duty

A heavy duty mat that is used for applications where body and strength are needed.

38" Wide (FIBERGLASSMAT-YD) \$4.25/Yard

COLORING AGENTS FOR POLYESTER AND EPOXY RESINS

Popular gel-match coloring agents that blend with polyester and epoxy resins. 1 oz. of pigment colors 1 quart of resin.

Gray, Red, Blue, Yellow, Brown, Dk. Blue, Black, White, Dk. Green

1 Oz. Tubes (PIGMENT) \$3.50

SILICONE MOLD RELEASE

Silicone is a good mold release agent for all types of fiberglass and casting molds.

Spray cans only.

12 Oz. Spray Cans (SILICONE) \$3.75

Case of 12 Cans (SILICONE-12) 35.00

LIQUID PVA MOLD RELEASE PARTALL

A water/alcohol solution. It is water soluble and can be sprayed or brushed on and is used as a mold release for Epoxy or Polyester resins.

Pints (PVA) \$4.00

MOLD RELEASE WAX PARTALL #2

Use on mold parts to prevent the sticking of resin to molds. A paste wax mold release.

1 Lb. Can (PARTALL) \$9.50

POLY GLOVES - SMOOTH

A low cost, disposable, protective plastic glove. Resistant to most chemicals, detergents and acids. Excellent for protection when working with fiberglass resins. Available in small and large sizes. Please specify size needed.

Box of 1000 Gloves (POLYGLOVE) \$10.00

Case of 10,000 Gloves (POLYGLOVE-CASE) 90.00

POLY APRONS - EMBOSSED

A disposable, low cost polyethylene apron. Comes in dispenser boxes of 100 aprons to the box. 28" x 46". 2 Mil thick.

Per Box of 100 (POLY-APRON) \$18.50

HIGH GRADE BRISTLE BRUSHES

Fine bristle brushes strongly set in metal ferrules.

Per Dozen (BRUSH-3000-12)	12.00/dozen

FIBERGLASS/EPOXY SUPPLIES

TAP GENERAL PURPOSE EPOXY RESIN

A versatile epoxy with easy 1:1 mix ratio. Use where high strength flexibility is required. All purpose epoxy resin that gives superior strength and the greatest possible adhesion. Use on aluminum, steel, fiberglass or close-grained woods. Ideal for styrofoam, it won't melt it. Use our color agents to achieve the desired color. Relatively fast curing with a 10 to 15 minute pot-life.

Pint Kit #644 (EPOXY-PINT) \$19.00

Quart Kit #643 (EPOXY-QT) 26.00

2 Gallon Kit #642 (EPOXY-2GAL) 125.00

SPREADERS KIT

For smooth application of plastic filler on large areas. Bends to follow contour when applying on curved areas. Handy when working with glass cloth. Flexible spreaders for every need. Designed for smoother application of marine resins.

Kit #381 (SPREADER)

\$1.50/each

RIGID URETHANE FOAM

A rigid 2 lb density polyurethane foam that expands up to 30 times its original liquid volume, adding strength and buoyancy to your craft! Just mix equal parts of resin and hardener and pour into an enclosed area, leaving plenty of room for expansion. It comes in two equal parts: Part A-Resin and Part B-Catalyst (hardener). Ideal for pour-in-place buoyancy or insulation, like under seats and in bulkheads. Since our foam is not affected by petroleum products, it is can be used in boats or floats. Neither polyester nor epoxy resins will effect our foam, which makes it easy to fiberglass. Also excellent for tooling and mold-making. Can also be used for its superior sound and thermal insulation properties.

Quart Kit (FOAM-QT) \$30.00

Gallon Kit (FOAM-GAL) 65.00

TURBO MIXER

Make your electric drill into a power mixer. Blade type to be used on 1/4" electric drill.

Each (TURBO-MIXER) \$3.00

CASTING RESIN AND CASTING MOLDS

LAM-A-CAST

Our Special Crystal Clear Casting Resin

Our most popular crystal clear casting resin. This polyester resin is ideal for making decorative plastic craft items. Perfect for lamps, paperweights, figurines and embedments of coins and other objects. Colors may be easily added for special effects.

Pint with Hardener (LAMACAST-PINT)	\$10.00
Quart with Hardener (LAMACAST-QT)	15.00
Gallon with Hardener (LAMACAST-GAL)	42.00
Case of 4 - 1 Gal Cans with Hardener (LAMACAST-CASE)	155.00

Technical Bulletin-Instructions for use available on request at no charge.

Resins should be stored in a cool place and all

resins should be used within 6 months of purchase.

EXTRA MEK-P CATALYST

PLEASE NOTE: MEK Catalyst is Methyl Ethyl Ketone Peroxide and should be kept out of reach of children. Students should be closely supervised when using this product. Always wash hands with soap and water after using the catalyst. A doctor should be called immediately if someone should swallow this material or get it in their eyes.

Do Not use for clean-up!

1/2 Oz. Bottle for Quart (CATALYST-5OZ)	\$1.30
2 Oz. Bottle for Gallon (CATALYST-2OZ)	2.25

Note: Please make sure that all students are well supervised when working with all of our resins. Protective gear and especially goggles should be worn at all times when mixing and using resins.

Extra catalyst for use with polyester resin only.

MEASURING CUPS

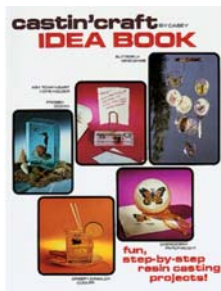

Our cups have 1/2 oz. markings on the inside of the cup for easy measurements. A must for any work with resins, catalyst or pigment.

3 Oz. Box of 100 (CUP-3OZ)	\$5.80
Case of 1000 Cups (CUP-3OZCASE)	47.00
6 Oz. Box of 100 (CUP-6OZ)	6.35
Case of 1000 Cups (CUP-6OZCASE)	58.00
9 Oz. Box of 100 (CUP-9OZ)	6.80
Case of 1000 Cups (CUP-9OZCASE)	59.00

MIXING CUPS

Cups without any markings. Use for mixing only. Our cups offer long service. Clean with acetone.

16 Oz. Box of 100 Cups (CUP-16OZ)	\$12.50
32 Oz. Box of 12 Cups (CUP-32OZ)	3.25

CASTIN CRAFT IDEA BOOK

16 page book with fun practical resin casting projects and ideas.

(CASTINCRAFT)	\$3.50/each
---------------	-------------

CRAFT STICKS

Our craft sticks can be used for stirring and mixing resin, resin dyes, and gel coats. Ideal for all types of craft projects. 3/8" x 4-1/2"

Box of 1000 (CRAFTSTICK)	\$4.75
Case of 10,000 (CRAFTSTICK-CASE)	37.00

RESIN DYES

TRANSPARENT RESIN DYE

1/2 Oz. Squeeze Bottle (DYE) \$3.50/each
Colors available (Please specify color when ordering)
Red, Blue, Green, Yellow, Amber

PEARL PIGMENT

One of our most popular colors of all time. Give your projects the look of Mother-Of-Pearl. Our colors are extra rich.

1/2 Oz. Squeeze Bottle (PEARLPIGMENT)	\$3.65
---------------------------------------	--------

COLORING PIGMENTS FOR POLYESTER AND EPOXY RESIN

Our color pigments are solid color pigments you mix with polyester and epoxy resins. Solid colors only.

Gray, Red, Wave Blue, Yellow, Brown, Dk. Blue, Black, White, Dk.

Green

1 Oz. Tubes (PIGMENT)	\$3.65
-----------------------	--------

EYE DROPPERS

Glass eye droppers for measuring dyes, catalyst, and pigments.

Dozen (EYEDROPPER)	\$3.75
--------------------	--------

GEL PROMOTER

A special promoter for use with our Polyester Resin. Add up to 4 drops of promoter to each ounce of resin. This will gel your resin in approximately 1.5 minutes, allowing the inclusion of glitter or other heavy objects into the resin so they will not settle to the bottom of the casting. Add Gel Promoter after the resin has been catalyzed and embedments included. Cure time remains the same. 2 Oz. Bottle.

(GEL-PROMOTER)	\$4.00
----------------	--------

RESIN CRAFT SURFACE COAT

Multi-use clear resin spray covers scratches, fingerprints, and imperfections on resin castings. Fast drying and easy to use. Ideal clear coating to give "wet look" to rocks, gem stones, seashells, jewelry and resin castings.

5-3/4 Oz. Spray Can (RESINCRAFT)	\$5.00
----------------------------------	--------

SURFACE CURING AGENT

Add to our Lam-A-Cast casting resin in addition to catalyst. Used when pouring final layer to give a hard, tack-free surface.

2 Oz. Bottle (SURFACECURE)	\$4.25
----------------------------	--------

MOLD MAKING MATERIALS

MOLD BUILDER

Liquid latex rubber for making your own molds large and small. A smooth-flowing liquid latex that you can brush over models to create flexible molds that will produce many plaster castings. Just brush on several thin air-drying coats and peel off a ready to use rubber mold. Mold Builder reproduces fine details, has good elongation and stretch. High solid content produces quick build-up. Simple water clean-up. General instructions for making molds and shells is furnished with each can. For complete instructions see our book "How to Make Latex Molds."

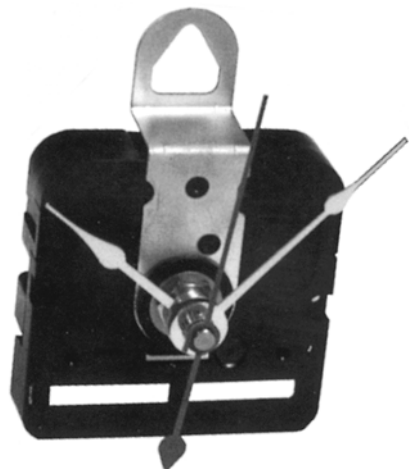

Pint Can (MOLDBUILDER-PT)	\$8.00
Quart Can (MOLDBUILDER-QT)	13.50
Gallon Can (MOLDBUILDER-GAL)	38.00
Case of 4 - 1 Gallon Cans (MOLDBUILDER-CASE)	140.00

HOW TO MAKE LATEX MOLDS

This book is intended as an introduction to the art of making latex rubber molds for plaster castings. It presents all the information necessary for the beginner to construct his own molds, and also offers some valuable information for the more experienced caster who has practice in making molds. Includes descriptions of materials, tools and processes for making plaster casting molds of latex rubber and the plaster back-up shells which must be used along with them. Step-by-step illustrations are accompanied by detailed illustrations for clarity and ease of understanding.

POLYMER COATING

Delvie's Plastics offers the EvnirTex Lite Polymer coating, the best we have ever found. It is an excellent choice for table tops, it goes on with just one simple pouring and hardens to a tremendously durable, high gloss surface which is impervious to water, alcoholic beverages, and needs very little care. It can be used for coating jewelry boxes and figurines.

****EASY TO USE ONE TO ONE MIXTURE***

****JUST POUR IT ON!***

****SUPER WET LOOK***

****1/8" THICK WHEN CURED***

****SUPER HARD RESISTANT FINISH***

Our best and easy to use pour on polymer coating hardens to a high-gloss, high-build-finish. One coat equals up to 50 coats of varnish. No polishing required. Heat, impact, alcohol resistant and waterproof. Ideal for putting photos on wood, cover ink drawings, covering plaster paint or wood. Also excellent for coating wooden table tops, and clocks. Almost any material.

Magazine and Newspaper Clippings - After the clipping has been mounted to the wood surface, seal the entire plaque with Ultra Seal. This will prevent the clipping from becoming translucent. Wait 3 to 4 hours before pouring with Polytex.

Plaques - Diplomas and Photographs - After print or picture has been mounted to the wood surface, seal the entire plaque (including the sides) with a Ultra Seal. This may be done with a brush. Wait 3 to 4 hours before pouring the surface with Polytex.

Ceramic Statues - After the ceramic figure is painted, let it dry for 24 hours. Pour Polytex, starting at the top of the figure. Use a small brush to ensure that Polytex is in every crevice.

General Coating - Polytex, a versatile product, may be applied over almost any surface, rough or smooth. It may be applied over leather, wood, varnish, ceramics, rocks, dried flowers, shells, and many other items. If in doubt, test a small sample of the item you wish to pour.

8 Oz. Kit Covers	2 - 3 Sq Ft	8 Oz. Kit (4 Oz. A, 4 Oz. B) (POLYMER-8OZ)	\$6.60
16 Oz. Kit Covers	4 - 6 Sq Ft	16 Oz. Kit (8 Oz A, 8 Oz. B) (POLYMER-16OZ)	8.80

16 Oz. Jar (ULTRASEAL-16OZ)	9.50/each

PLASTISOLS

PLASTISOL DIP CASTING DISPERSIONS

LIQUID FLEXIBLE PLASTISOL NO. 65

Our best plastisol for making squeeze type coin purses, comb cases, and pen/pencil cases. Molds are pre-heated in an oven at 400 degree prior to dipping. The mold is then submerged in the plastisol, length of time determines the thickness of the material on the mold. (90 seconds will give a 1/8" thickness). Place the mold in an oven at 400 degrees and cure for approx. 15 minutes. Dip into water for quick cooling.

Quart (PLASTISOL65-QT)	\$15.00
Gallon (PLASTISOL65-GAL)	30.00

CLEAR TOOL DIP PLASTISOL NO. 28

Insulate your pliers or wrench from the cold or shock. Works well on all metals as well as wood. Use the same way as you use our #65 Plastisol. Heat tool to 450F. Dip into Plastisol for about 20 seconds. Withdraw at the rate of 1 to 2 seconds per inch. Allow to hang until dripping stops. Remove "pips" by touching with a piece of paper or cardboard or by inverting the tool. Place back into oven at 400F.

Quart (PLASTISOL28-QT)	\$15.00
Gallon (PLASTISOL28-GAL)	30.00

PLASTISOL NO. 28 PRIMER

Our primer will permit plastisol to adhere to any material permanently. Increases plastisol adhesion to metal by over 50x. Apply to tool or handle prior and let dry prior to dipping

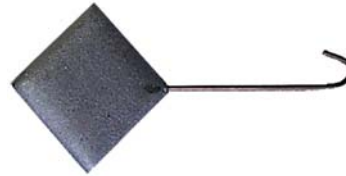

Pint (PLASTISOLPRIMER-PT)	\$8.00
Quart (PLASTISOLPRIMER-QT)	12.00

POLYSTYRENE BEADS AND MOLDS

EXPANDABLE POLYSTYRENE BEADS

Our new beads expand up to 20% faster with better stability and foam fusion. The faster molding cycle will give you improved energy efficiency allowing you to complete a project in one class period. Our beads are made from the finest cast materials, giving you years of service. To pre-expand your beads put the raw beads in boiling water and wait for the beads to float to the top. At this point the beads are about 2.5 times the original size. Skim the beads off the water and pack into any of our unique molds. Place the mold into the boiling water for approx 20 minutes to expand the beads to the final size. The beads expand and form to the shape of the mold.

Expandable polystyrene beads offer one of the simplest and least expensive methods of teaching casting techniques while keeping the students interest.

Please note: Never store the beads in a plastic bag or at temperatures exceeding 80 degrees. Raw beads have a shelf life of only 3 months so only order the amount of beads that you will use within that time. Our expandable beads also have excellent flotation qualities. One cubic foot of beads will support 55 lbs in water. White Only.

1 - 4 lbs. (POLYSTYRENEBEADS-001)	\$3.25/lb
5 - 24 lbs. (POLYSTYRENEBEADS-002)	3.00/lb

JAMZ SAFETY GLASSES

Are you looking for quality safety eye glasses that actually fit your students? Our Jamz glasses are manufactured in a 54mm size that perfectly fit younger students and students with smaller faces.

Let the sparks fly with the hottest new look in protective eye wear. Jamz rugged design meets or exceeds ANSI standards, to ensure there is no compromise on safety.

Take a closer look, and you'll see that Jamz have clear permanent side shields and an integral brow bar for an extra measure of protection, plus exclusive Uniflex ball and socket hinges for added durability. With impact resistant polycarbonate lenses, hard coated inside and out, for scratch abrasion resistance. Jamz contoured frame and universal bridge helps make them easy to wear, and they weigh just 1.3 ounces, so they wear easy all day long. Good looks, of course, comfort, yes! Designed with younger people, women and students in mind, the 54mm eye size strengthens the appeal of what are already among the most comfortable eye wear on the market today.

Not only will you be impressed by the quality of our new Jamz eye wear, the scratch resistant hard coated polycarbonate lenses and the 1.3 Oz. weight but the pricing is some of the best on the market today. We understand that schools are struggling for funds but don't compromise on safety. All of our eye wear is guaranteed to meet all ANSI safety standards.

Tan Frame with clear lens.

HEARING PROTECTION

Our hearing protection reduces harmful noise with ear cups that feature polyfoam ear cushions for extra comfort. A cushioned three position reinforced super tuff headband adjusts to any head size. Completely dielectric and weighs only 7 ounces. Ideal for sportsman and

industrial applications.

Each (HEARPROTECT-01)	10.00
Per Dozen (HEARPROTECT-12)	100.00

NUISANCE DUST MASK

Double absorbent filter material screens out dust, lets air pass freely. Custom fit nose-piece is easily molded to fit snugly around any facial contour. The mask is non-allergenic, soft, flared edges are non-irritating. Ideal for sanding and grinding, lab or clean room

environments or cleaning dusty areas.

Box of 50 Maskes (DUSTMASK)	12.50
-----------------------------	-------

STA-CLEAR LENS CLEANING STATIONS

Our cleaning station keeps your glasses in excellent condition. As with any tool or product if you can take care of it the life of the product is greatly increased. Don't let your glasses get scratched and ruined. Using proper care and cleaning techniques you will triple the life of your glasses.

Our Sta Clear Cleaning Station is the natural place for tissues. Includes a plastic bottle and pump for moistening with just water. Holds a box of 1000 tissues and includes a tissue disposal compartment too. Note: This is a cardboard box system.

Each (STACLEAR)	\$13.57
-----------------	---------

#480 Sta-Clear Lens Cleaning Tissues

Insure better vision and safety with tissues that clean, polish and protect glasses and goggles.

Antistatic, antifog cleaning solution impregnated in tissues.

Needs only water to activate.

Contains no silica so polycarbonate lens stay scratch-free.

Tissue box contains 1,000 tissues.

Each (480TISSUE)	\$8.85

VACUUM FORMING MACHINERY AND SUPPLIES

THERMO-VAC

At last, an inexpensive, highly compact 15" x 20" vacuum forming unit which will form signs, plaques, molds or prototypes with equal ease. Equipped with "EVENHEAT" circulator. A separate switch operates the squirrel cage fan, allowing an even flow of heat between your plastic and the heating element. This will prevent hot spots on your plastics. Just flick the special switch off when using heavy plastic. 280 Sq. Inches of Platen. Compact, half the size of other 14" x 20" Units. Sheet size adapter available. No need to waste a large sheet of plastic on a small project. Sizes are 7" x 7", 7" x 10", 7" x 14", and 10" x 14".

Model 10-B (THERMO-VAC) \$950.00

Sheet Adapter

WZ-1 Adapts your Thermo-Vac to use 1/4 sheet (7" x 10") of plastic per cycle. Ideal for smaller projects. A easy, fast and safe means to economize on plastic. (THERMO-VACWZ1)

95.00

MAGNETIC TAPE

Our magnetic tape and sheet have a high tack, pressure sensitive adhesive layer on one side, protected by a peel-away backing. This makes our tape an excellent choice. A simple project using our tape is to take a piece of 1/8" clear acrylic, using our strip heater fold the acrylic in half, like a piece of paper. When the acrylic cools it will hold the shape. Attach the tape to the back of the acrylic and use it as a picture holder for the front of your refrigerator.

100 Ft. Rolls

1502 1/2" Tape (MAGTAPE-500)	28.40/Roll
1503 3/4" Tape (MAGTAPE-750)	42.50/Roll
1504 1" Tape (MAGTAPE-1000)	55.00/Roll

MAKE YOUR OWN CASTING MOLDS FROM LOW DENSITY POLYETHYLENE

.060 THICKNESS Polyethylene is an excellent mold making material. Our polyethylene is soft, low density material which makes excellent molds for our polyester resins. With the use of a vacuum forming machine you can create a poly mold of just about any design you can imagine.

7" X 7" (LDPOLY-77)	\$.60/Sheet
10" X 12" (LDPOLY-1012)	1.10/Sheet

INJECTION MOLDING MACHINERY

At last quality injection molding machinery. Delivery is approx 45 days FOB Factory. Show your students the practical uses of injection molding. We are offering two models of injection molders. A manual machine that uses a lever to inject the melted pellets and an air system that forces the melted plastic into the molds. Both machines offer a 1 year parts and labor warranty. We also offer all of the accessories, styrene, polypro., polyethylene, etc., as well as the molds listed below.

ALUMATRON #66M

Manual Model 2/3 Oz. Shot 600 Watts 117 VAC
2/3 Oz. capacity manual unit. 600 watt heaters. Large temperature gauge. 1 ton clamp. Sturdy aluminum construction. This unit is ideal for programs on tight budgets.

(ALUMATRON-66M)

\$1250.00

#110A MEGATRON

1.1 Oz. shot. Requires 100 psi. This machine is air powered and large enough to do prototypes and short run manufacturing. The school shop has been waiting for a unit of this capacity and quality. 110 VAC/1100 Watts.

(MEGATRON-110A)

\$2600.00

All units feature lightweight Rust Free Construction.
Complete Illustrated Instruction Book.
Grounded Plug

1 Year Limited Parts and Labor Warranty.
10 Ft. Power Cord
Purge Block

INJECTION MOLDS

These molds work on our Alumatron or Megatron machines plus all Honna and EMCO machinery. When ordering be sure to provide us with the machine that will be used. Height of all molds is 2-1/4" x 1" Depth X 4" Length.

(INJMOLD)

- #1 Screwdriver Handle. A very popular mold that uses 2.5MM Blades (INJMOLD-1)
- #2 Checker. Use HD Polyethylene, High Impact Polystyrene or Polypropylene. (INJMOLD-2)
- #3 Poker Chip. Use HD Polyethylene, High Impact Polystyrene or Polypropylene. (INJMOLD-3)
- #4 Guitar Pick. Use Polypropylene. (INJMOLD-4)
- #5 Key Fob. Use two Kennedy Half Dollars. (Not Included) (INJMOLD-5)
- #6 Furniture Glide. (tack bumper Uses No. 17 5/8" Nail. (INJMOLD-6)
- #7 Paper Clip. Use LD Polyethylene (INJMOLD-7)
- #8 Bulletin Board Tack. Use HD Polyethylene, HI Polystyrene or Polypropylene. (INJMOLD-8)
- #9 Golf Tee. Use Polypropylene (INJMOLD-9)
- #10 Bottle Cap. Use LD Polyethylene (INJMOLD-10)

8 Oz. Bag (POWDERPIGMENT)	24.00

PLASTIC WELDING

SI 1005 SEELYE ELECTRIC PLASTIC WELDER UNIT

Our basic Seelye Welder contains all the necessary features for fast economical welding of plastics. Teach your students how to weld polyethylene, polypropylene, PVC, and ABS. It is said that by the year 2000 50% of the components, bumpers, hoods, gas tanks, etc. will be constructed from plastics which can only be repaired by welding. This is a clean, inexpensive program for all auto body and school shops. Includes one round tip, air regulator, pressure gauge, steel stand, 500 watt element and complete instructions for operating.

(SEELYE-1005)

\$255.00

SI-1002 SEELYE ELECTRIC PLASTIC WELDER KIT

A complete plastics welding outfit for production and general shop use. Great for vocational trade schools. Kit contains Welding Unit, tacking tip, handy plastic carrying case and complete instructions with VCR tape.

(SEELYE-1002)

\$280.00

MATERIALS FOR WELDING

Economical bulk welding rod for all projects. High Density Polyethylene, Low Density Polyethylene, Polypropylene, White Polypropylene, ABS, and PVC. All sold per pound. Available in 1/8" Dia. (1 Lb. is approx. 160 Ft.)

1 - 4 Lbs. (WELDINGROD-01)	\$8.50/Lb
5 - 9 Lbs. (WELDINGROD-02)	7.50/Lb
10 - + Lbs. (WELDINGROD-03)	7.00/Lb

(Please specify material type when ordering)

ATTACHMENTS

#5 Round tip for general welding and tight corners.

(SEELYE-5)

\$16.00

#4 Tacking Tip. An important aid for temporary assembly and weld holding.

(SEELYE-4)

\$25.00

#9 1/8" High Speed Welding Tip. Automatic feed tips operate with one hand for high production. Speeds welding four to six times. Feeds rod in the right direction to form uniform welds. Stainless steel construction. #9 to handle 1/8" rod and #10 to handle 3/16" rod. Use 500 Watt Elements.

(SEELYE-9)

\$75.00

HEATING ELEMENTS

Our elements work on all of our Seelye Welders. It is a good idea to keep a spare element just in case your present element burns out and you are in the middle of a job or class project. Most of our welders come with the 500 Watt installed.

400 Watt - Temp 350 to 550F (SEELYE-400)

500 Watt - Temp 460 - 770F (SEELYE-500)

650 Watt - Temp 570 to 900F (SEELYE-650)

220 Volt Elements available on special order.

\$25.00

"HOW TO MAKE BETTER PLASTIC WELDS"

One of the most practical how-to-manuals on thermoplastic welding. Contains illustrated step-by-step instructions on hand welding, speed welding, equipment and welding preparations. Temperature, speed and pressure recommendations are given for all common materials with special notes and exercises for training and familiarization courses. 65 pages.

Each (HOWTOMAKEWELDS)

\$10.00

DVD

WELDING AUTOMOTIVE THERMOPLASTIC

At last, a vital VHS on welding polyethylene, Polyprop, ABS, PVC, and Polyurethane. The techniques presented work well on automotive parts as well as any welding you might need. This is a must for any shop teaching the essentials of welding. It has been estimated that by the end of the century 90% of automobiles will be made from plastics that can only be repaired by welding. Give your students a head start on what is becoming one of the biggest areas of production.

FOREDOM POWER KITS

Foredom Power Tools are the best tools on the market today for internal carving in plastics and woods. These are NOT light duty hobby tools, they are industrial tools designed for industrial applications. Manufactured for long life and heavy duty use. When you purchase Foredom Power Tools from Delvie's Plastics we guarantee your satisfaction. All Foredom tools come with a one year warranty. We discount all of the Foredom and Dremel tools we offer, so you can purchase from us with confidence.

#2272 GENERAL APPLICATIONS KIT

The best general purpose, professional quality flexible shaft power tool kit available. Contains Foredom's most popular tools:

"S" Series 1/8 HP, Ball Bearing Motor with variable speed up to 18,000 RPM
FCT-1 Solid State, Electronic Foot Control
No. 30 Key-type, 3-Jaw Geared Chuck Hand piece (Jacob Chuck)
No. WK50 Accessory Kit with 10 assorted tungsten carbide burs, ruby carver carving drill, vanadium steel cutter and aluminum oxide grinding stones and mandrel.

Also includes flexible shaft grease.

Total Value	\$305.00	Retail Price	\$279.00
Your Cost (FOREDOM-2272)			\$250.00

#2276 WOODCARVING KIT

The same as the #2272 kit except for the #44 hand piece which is adaptable to larger accessories with up to 1/4" dia. shanks. Popular among wood carvers, machinists and industrial users.

The 2276 Woodcarving Kit contains these main components:

*S Motor - Foredom's 1/8 hp, ball bearing, hang-up style motor with speed up to 18,000 rpm. This is Foredom's most popular motor, and its increased power (25% more power than CC, DD, and MM motors), makes it perfect for just about any application.

*FCT Control - this foot operated speed control has solid state electronics and comes in a heavy duty plastic housing with an extra wide design.

*No. 44T Handpiece. This collet style handpiece is popular among woodcarvers since it accommodates larger accessories with shank diameters up to 1/4". It comes with 3/32", 1/8" and 1/4" collets. The tapered design allows for close and safe work. The No. 44T is a member of the Foredom system of interchangeable handpieces.

Also includes flexible shaft grease.

Total Value	\$275.00	Retail Price	\$224.00
Your Cost (FOREDOM-2274)			\$205.00

INTERNAL CARVING

Internal carving is the process of actually carving a figure into a piece of heavy acrylic. From the bottom of a cube or block, use our internal carving drills with your Foredom tools to actually carve a flower, tree, bird, etc. into the acrylic. The clear top of the acrylic allows you to see the object that has been carved into it. We have a complete instruction manual and all accessories to do this beautiful artwork.

Drills:

DP-1 1/16" Dia. (DP-1)	\$6.75/Each
DP-2 3/32" Dia. (DP-2)	6.75/Each
DP-3 1/8" Dia. (DP-3)	6.75/Each

INTERNAL CARVING IN PLASTICS

A simple step-by-step instructional manual. This is the best, and only book that gives complete instruction on internal carving. How to carve, how to color, how to do everything. Learn to carve roses, orchids, make jewelry, paper weights and clocks. (INTERNALCARVINGBOOK) \$4.25

FOREDOM POWER TOOL ACCESSORIES

FOOT CONTROLS

The foot controls and handpieces listed on this page fit all of the Foredom tools we offer. All Foredom handpieces are quick release and interchangeable. It's a good idea to have different handpieces for different projects.

FCT-1

An Electronic Foot Control for excellent speed up and slow down. In a heavy duty plastic housing.
(FOREDOMFCT-1) \$35.00

SCT-1

An Electronic Foot Control for excellent response but in a heavy duty metal housing that avoids slipping. We recommend this Foot Control because of the quality and break resistance of the unit.
(FOREDOM-SCT1) \$55.00

EM-1

Our Electronic Bench Mount Control. For speed control that is bench mounted. Speed is controlled by turning the knob. (FOREDOM-EM1) \$50.00

REPLACEMENT PARTS FOR FOREDOM

If you are planning on doing a lot of carving it is a good idea to have an extra inner cable and outer sheath for your FOREDOM tools.

Replacement Inner Cables (FORE-004) \$9.00

Replacement Outer Sheaths (FORE-005) \$13.00

Motor Brushes Per Pair (FORE-006) \$6.00

NOTE: When ordering parts be sure to let us know the Model of your Foredom Tool. For example CC or DD.

MAINTENANCE KITS

Maintenance kits for Foredom machines contain: 1 flexible shaft, 1 pair motor brushes, 1 oiler and 1 flexible shaft grease. Order according to the series number of your machine.

MK-1 Maintenance Kit for sleeve bearing motors, R, RB, RM, CC, DD & MM \$17.50

MK-9 Maintenance Kit for Ball Bearing motors,

S, SB, SM, SR, CC, DD, & MM \$16.00

PLEASE NOTE: We know how tight budgets are for schools. All of the machinery listed on this page reflect a 10% discount for our school customers. We are trying to keep your costs to a minimum.

INTERCHANGEABLE FOREDOM HANDPIECE

#8 HANDPIECE

This handpiece is a professional precision tool with grease-sealed ball bearings for smooth, accurate operations under sustained load. Supplied with sliding guard to protect chuck against mechanical damage. Supplied with No. 603 (3/32") collet unless otherwise specified.

(FOREDOM-8) \$59.00

Collets for #8A Handpiece

MINIATURE HIGH SPEED BENCH GRINDER

A 1/15 HP ball bearing universal motor with a maximum speed of 17,000 RPM. It is mounted on a cast iron base with a dial speed control or a separate foot operated control. The motor has two shafts for mounting small abrasive wheels, grinding stones, buffing and polishing wheels. The high speed of this grinder makes it suitable for many operations such as tool sharpening, cleaning, and touch up work. An MC-1 collet chuck is available that attaches to the motor shaft for use with 1/16" to 1/8" collets and shank mounted accessories. This permits the user to hold a work piece while doing delicate carving of stone or wood, glass engraving, and other precise work. A Flexade can also be attached for high speed flexible shaft use with all handpieces. Comes complete with an aluminum oxide grinding stone and wheel arbor, tapered spindle and cotton buff.

Model #1 with Electronic Manual Speed Control attached to base of housing (FOREDOM-GRINDER)

\$130.00

Model #5 with FCT-1 Electronic Foot Control

(FOREDOM-5) \$140.00

ROTATING BUR HOLDER

Nos. 428, 442, 443 Small, versatile steel brushes for efficiently removing rust and corrosion, polishing metal surfaces. 1/8" Shanks
Do not run in excess of 15,000 RPM
Each \$2.65

Drum Sanders

Drum Sander with Shank Drum Sander Band

1/8" Drum Sander and Drum Sander Bands are ideal for rough shaping wood and smoothing fiberglass. Sander bands are replaceable and available in 1/2", 1/4" and 3/8" sizes.
No 407 1/2" Dia. Drum Sander with Shank comes with one band. 1 per pack.
No 408 1/2" Dia. Sander Band, Coarse 60 Grit. 6 per pack
No 432 1/2" Dia. Sander Band, Fine 120 Grit. 6 per pack.
No 430 1/4" Dia. Drum Sander, Coarse 60 Grit. 1 per pack.
No 431 1/4" Dia. Sander Band. Coarse 60 Grit. 6 per pack.
No 438 1/4" Dia. Sander Band. Fine 120 Grit. 6 per pack.
No 439 3/8" Drum Sander 1 per pack
No 440 3/8" Sander Band. Coarse 60 Grit. 6 per pack
No 444 3/8" Sander Band. Fine 120 Grit 6 per pack
Per Pack \$2.65

Cut Off Wheels

No 409 Emery wheel for slicing and cutting off metal, plastic 15/16" dia. .025 in. thick. 36 per pack
No 420 Emery, heavy duty - 15/16" dia. .04" thick. 20 per pack
No 426 Fiberglass reinforced, 1-1/4" dia. .045" thick 5 per pack
Each Pack \$5.30

Sanding Discs

For use with Mandrel No 402
No 411 3/4" Dia. Coarse 180 Grit Sanding Discs. 36 per pack
No 412 3/4" Dia. Medium 220 Grit Sanding Discs. 36 per pack
No 413 3/4" Dia. Fine 240 Grit Sanding Discs. 36 per pack
Per Pack \$3.00

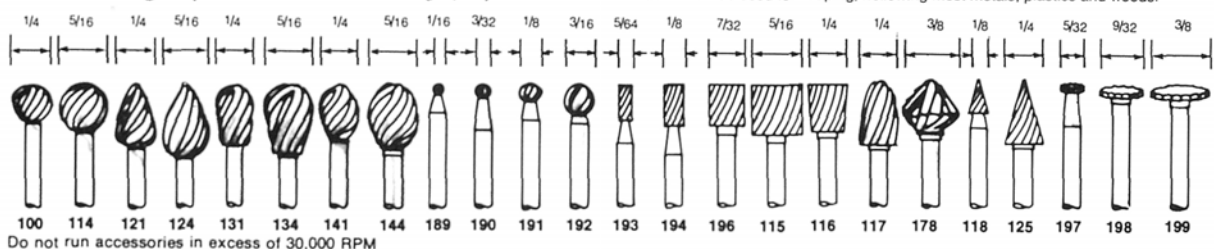

402 Mandrel

No 402 Mandrel to be used with all cutting wheels, sanding discs and polishing wheels
Each \$2.65

1/8-in. Shank High Speed Cutters

Made of high quality steel. All have 1/8" shanks. Can be used for shaping, hollowing most metals, plastics and woods.

High Speed Cutters

\$5.30/each

GLUE GUNS

HOT MELT GLUE GUNS

PRO 90 HT INDUSTRIAL GLUE GUN

Our Pro-90 uses a state-of-the-art PTC heating system for accurate temperature control and its simple, compact design is perfect for small applications where precise adhesive placement is required. It is ready to use in under 4 minutes. It offers great performance for a fraction of the price you would expect to pay from such a reliable handgun. Our handguns provide consistent adhesive delivery and precise control unmatched by other competitive applicators. Our guns are durable and can withstand continuous use - 24 hours a day. This is a hot melt glue gun and uses 1/2" round glue sticks.

1 - 4 (GLUEGUN-90)	\$15.00
5 - +	13.50

GLUE STICKS

1/2" round glue stick for use with hot melt glue guns. These products offer superior bonding performance versus the competitions. Our adhesive are 100% solid, solvent free materials that become fluid when heated. In the molten state they bond within seconds to many surfaces, wood, plastics, paper, rubber, metals - eliminating the need for clamps or fixtures and work-in-process inventories.

4" Length

Per Pack of 30 (GLUESTICK-30)	4.00
Per Pack of 100 (GLUESTICK-100)	12.00
Per Pack of 1000 (GLUESTICK-1000)	100.00

10" Length

Per Pack of 30 (GLUESTICK-3010)	12.00
Per Pack of 100 (GLUESTICK-10010)	36.00
Per Pack of 1000 (GLUESTICK-100010)	300.00

Scott SIGNGRAVER Engraving Machines

SM300 SIGNGRAVER™

Large 10" x 18" capacity engraver makes everything from name tags to directory boards. The Signgraver utilizes a fixed reduction ratio (2:1) pantograph that allows anyone to make precise, professionally engraved signs. Includes: high speed universal (117 volt or 230 volt, 60 Hz) motor; metal copy table and pantograph arm; 2 type holder bars; 4 letter locks; 1, 20° tracing stylus; 1, 34° tracing stylus; 2 motor mounted depth controls; 1 stylus mounted depth control; 4 hex wrenches (5/32", 1/8", 1/16", 3/32"); 1 cutter gauge; 1 CA4 1/16" carbide cutter; operator's manual. Additional cutters and master fonts not included. 117 Volt. Shipping Weight: 50 lbs.

SM 300 Signgraver (SCOTT-SM300) \$1375.00

SM300K COMPLETE SIGNGRAVER KIT

A complete ready to operate engraving shop that offers the user maximum performance and versatility. Includes: Signgraver and 4 carbide cutters (CA1, 1/64"; CA2, 1/32"; CA4, 1/16"; CA8, 1/8"); 1 diamond drag cutter; 4 master fonts (ML211, 3/8"; ML212, 5/8"; ML13, 1"; ML15, 13/4"); 1 ML500 arrowhead template; 4 font trays; 1 SR slide rule; sample material. 117 Volt. Shipping Weight: 57 lbs.

SM 300K Signgraver and Kit (SCOTT-SM300K) \$1849.00

SM500 SELECTABLE RATIO SIGNGRAVER™

Our Scott SM500 is the same engraver as our 300 but with a versatile Signgraver with Selectable Ratio arm. This allows ratio selections of 2:1, 2.5:1, 3:1, 3.5:1, and 4:1. Produce five finished sizes from one master. Selectable Ratio Signgravers utilize an easy to operate "sliding motion" to select desired ratio. Obtain those "in-between sizes" quickly and easily.

Large 10" x 18" capacity makes everything from name tags to directory boards. Includes high speed, universal (117 volt or 230 volt, 60 Hz) motor; metal copy table and pantograph arm; 2 type holder bars; 4 letter locks; 1, 20° tracing stylus; 1, 34° tracing stylus; 2 motor mounted depth controls; 1 stylus mounted depth control; 4 hex wrenches (5/32", 1/8", 1/16", 3/32"); 1 cutter gauge; 1 CA4, 1/16" carbide cutter; operator's manual. Additional cutters and master fonts not included. 117 Volt. Shipping Weight: 49 lbs.

SM 500 Selectable Ratio Signgraver (SCOTT-SM500) \$1780.00

SM500K SELECTABLE RATIO SIGNGRAVER KIT

A complete ready to operate engraving shop that offers the user maximum performance and versatility. Includes: Selectable Ratio Signgraver and 4 carbide cutters (CA1, 1/64"; CA2, 1/32"; CA4, 1/16"; CA8, 1/8"); 1 diamond drag cutter; 3 master fonts (ML212, 5/8"; ML13, 1"; ML15, 1-3/4"); 1 ML500 arrowhead template; 3 font trays; 1 SR slide rule; sample material. 117 Volt. Shipping Weight: 54 lbs.

SM500 K Selectable Ratio Signgraver and Kit (SCOTT-SM500K) \$2165.00

Scott SIGNGRAVER Engraving Machines

SM100B TAG ENGRAVER™

Specifically designed for making name tags and small signs up to 3 1/2" high by any length. The Tag Engraver utilizes a fixed reduction ratio (2:1) pantograph. Fast, easy engraving operation lets anyone make professional quality tags and signs. Includes: high speed, universal (117 volt or 230 volt, 60 HZ) motor; metal copy table and pantograph arm; 1, 20° tracing stylus; 1, 34° tracing stylus; 2 type holder bars; 2 letter locks; 1 motor mounted depth control for up to 1/8" cutter; 2 stylus mounted depth control; 4 hex wrenches (5/32", 1/8", 1/16", 3/32"); 1 cutter gauge; 1 TA2 tag adapter; 1 CA4 1/16" carbide cutter; operator's manual. Additional cutters and master fonts not included. 117 Volt. Shipping Weight: 20 lbs.

SM 100B Tag Engraver (SCOTT-SM100B) \$910.00

TAG ENGRAVER WITH ONE FONT

Tag Engraver with ML211 master font (for engraved finished letter size of 3/16") and CA1 cutter. For making name tags and small labels. Shipping Weight: 21 lbs.

SM 100B1 Tag Engraver With One Font (SCOTT-SM100B1) \$1010.00

SM100BK COMPLETE TAG ENGRAVER KIT

Acomplete kit for making engraved tags and small signs. Includes: Tag Engraver and 3 carbide cutters (CA1, 1/64"; CA2, 1/32"; CA4, 1/6"); 1 diamond drag cutter; 4 master fonts (ML210, 1/4"; M L 2 11, 3 8"; ML212, 5/8"; ML13, 1"); 1 ML500 arrowhead template; 4 font trays; 1 SR slide rule; sample material. 117 Volt. Shipping Weight: 24 lbs.

SM 100BK Tag Engraver and Kit (SCOTT-SM100BK) \$1363.00

SM400 SELECTABLE RATIO TAG ENGRAVER™

This is the same engraver as our 100 but with a Selectable Ratio arm that allows you to make five type sizes with one font. Specifically designed for making name tags and small signs up to 3 1/2" high by any length. Includes: high speed, universal (117 volt or 230 volt, 60 Hz) motor; metal copy table and panto graph arm; 1, 20° tracing stylus; 1, 34° tracing stylus; 2 type holder bars; 2 letter locks; 1 motor mounted depth control for up to 1/8" cutter; 1 stylus mounted depth control; 4 hex wrenches (5/32", 1/8", 1/16", 3 32"); 1 cutter gauge; 1 TA 2 tag adapter; 1 CA4, 1/16" carbide cutter; operator's manual. Additional cutters and master fonts not included. 117 Volt. Shipping Weight: 20 lbs.

SM 400 Selectable Ratio Tag Engraver (SCOTT-SM400) \$1149.00

SM400K SELECTABLE RATIO TAG ENGRAVER KIT

A complete kit for making engraved tags and small signs. Includes: Selectable Ratio Tag Engraver and 3 carbide cutters (CA1, 1/64"; CA2, 1/32", CA4, 1/16"); 1 diamond drag cutter; 3 master fonts (ML211, 3 8"; ML212, 5/8"; ML13, 1"); 1 ML500 arrowhead template; 3 font trays; 1 SR slide rule; sample material. 117 Volt. Shipping Weight: 24 lbs.

SM 400 K Selectable Ratio Tag Engraver and Kit (SCOTT-SM400K) \$1596.00

SM-98 Material Beveler with Chip Removal System

A simple operation that provides smooth, beveled edges for your finished signs. Interface with virtually any shop vac with a 1 1/4" vacuum hose to help keep the work area chip free. Durable steel 3" x 12" material table. 117 volt, 60 Hz motor. Includes: 1 solid carbide 45° edge beveler cutter; 2 hex wrenches, 3/32" and 5/32"; Slide; operating instructions.

461.00

SM-99 Large Material Beveler with Chip Removal System

Same simple operation as Material Beveler. Large 8" x 22" aluminum table for increased stability and speed. 117 volt, 60 Hz motor. Includes: 1 solid carbide 45° edge cutter; 2 hex wrenches, 3/32" and 5/32"; Slide; operating instructions.

568.00

CR-90 Corner Rounder

Unique "shear action." Upper and lower knives cut engraving material evenly and uniformly, producing sharp, crisp rounded corners for your signs, plaques and tags. Handles up to 1/8" thick material. Capable of cutting radii of 1/8", 1/4", 5/16", 3/8", 1/2", with standard radius cutting units that are interchangeable without use of tools or adjustments. Not suitable for phenolic nor clear, polished Scott-Spectrum® engraving material. *Cutting units not included.*

(SCOTT-CR90)

189.00

Corner Rounder Cutting Units

Use with SM90 for making signs with rounded corners 1/8", 1/4", 3/8", 1/2" radius available.

Each (please specify radius needed when ordering)

103.00

SM-96 Scott Accu-Score® Cutting Device

enables the user to rapidly and efficiently fabricate sign blanks from sheet material. You now have the flexibility of making any size blank when the need arises, eliminating the need to inventory custom

(SCOTT-SM96)

443.00

K-005 Engraver Motor

Fits all engravers and bevelers. Available for 117 volt circuits. Motor includes: on/off switch, collet nut for insertion of cutters.

(SCOTT-K005)

157.00

K003 Hex Wrench 1/16" & 3/32"

K004 Hex Wrench 1/8" & 5/32"

Replacement hex wrenches for your engraver. The wrenches are used for tightening various components on your engraver, such as the copy slides, or for holding the motor shaft while changing cutters, etc.

Each (Please specify size when ordering)

4.70

12" Safety Shear

Our heavy duty shear comes with a clear acrylic safety guard. It cuts flexible engraving stock up to 3/32". Slide gauge for easy measuring, hardened tool steel blades. Cuts clean and will not bur, up to 12 wide by any length. NOT for use with acrylics or phenolic sheets.

ENGRAVING - CNC MATERIALS

Engraving materials are an excellent choice for CNC projects. Engraving stock is a laminate with a colored top sheet and a core color. When you engrave or route out the top sheet the core sheet comes through. Delvie's Plastics is a full line supplier of several types of engraving plastics. We have the largest selection of colors, textures, thickness and sheet size in the industry. We offer full sheets (24" x 48"), quarter sheets (12" x 24") and custom cut pieces.

THE SATINS

Our premier line! This lustrous satin finish engraving stock wears well and is available in a rainbow of colors. Easy to engrave, easy to work with.

COLOR SURFACE/CORE

122-204 WHITE/BLACK	122-205 WHITE/BLUE
122-206 WHITE/RED	122-208 WHITE/BROWN
122-209 WHITE/GREEN	122-228 IVORY/DK. BROWN
122-304 GRAY/BLACK	122-312 GRAY/WHITE
122-402 BLACK/WHITE	122-406 BLACK/RED
122-407 BLACK/YELLOW	122-512 BLUE/WHITE
122-517 BLUE/YELLOW	122-582 PURPLE/WHITE
122-602 RED/WHITE	122-604 RED/BLACK
122-607 RED/YELLOW	122-612 ORANGE/WHITE
122-614 ORANGE/BLACK	122-622 BURGUNDY/WHITE
122-704 YELLOW/BLACK	122-705 YELLOW/BLUE
122-822 BROWN/WHITE	122-832 BEIGE/WHITE
122-838 BEIGE/DK. BROWN	122-842 DK. BROWN/WHITE
122-854 ALMOND/BLACK	122-882 RUST/WHITE
122-912 PINE GREEN/WHITE	122-932 BRIGHT GREEN/WHITE

THE MATTES

This is an excellent choice for engraving small letters (less than 1/4"). It has a great matte, non-glare surface in the following fantastic colors:

2-204 WHITE/BLACK	2-205 WHITE/BLUE
2-206 WHITE/RED	2-228 IVORY/DK. BROWN
2-312 GRAY/WHITE	2-325 LT. GRAY/MARINE BLUE
2-326 LT. GRAY/BURGUNDY	2-402 BLACK/WHITE
2-512 BLUE/WHITE	2-562 LT. BLUE/WHITE
2-602 RED/WHITE	2-612 ORANGE/WHITE
2-622 BURGUNDY/WHITE	2-744 YELLOW/BLACK
2-842 DK. BROWN/WHITE	2-912 PINE GREEN/WHITE
2-932 BRIGHT GREEN/WHITE	

THE METALS

One of our most popular lines of engraving stock. The metals are actually a metal surface laminated on a vinyl back. Keep the students interest, offer them some of these beautiful materials.

5-334 BRUSHED SILVER/BLACK
5-344 SMOOTH SILVER/BLACK
5-354 BRUSHED ALUMINUM/BLACK
5-714 SMOOTH GOLD/BLACK
5-734 BRUSHED GOLD/BLACK
5-754 EUROPEAN GOLD/BLACK
5-872 BRUSHED BRONZE/WHITE
5-874 BRUSHED BRONZE/BLACK
5-878 BRUSHED BRONZE/IVORY

THE WOODS

Our wood collection contains realistic patterns in walnuts, rosewoods, and teaks.

7-018 LT OAK/DK BROWN	7-028 LT OAK/IVORY
7-042 TEAK WOOD/WHITE	7-052 ROSEWOOD/WHITE
7-072 LT WALNUT/WHITE	
7-102 COLONIAL WALNUT/WHITE	
7-112 DK WALNUT/WHITE	

THE TEXTURES

Do you want to try a new engraving material? This material has a textured surface that resist scratching and wear, plus it is available in these great colors. Great for outdoor use.

8-205 WHITE/BLUE	8-244 WHITE/BLACK
8-246 WHITE/RED	8-258 TAN/DK BROWN
8-374 ASH GRAY/BLACK	8-422 BLACK/WHITE
8-503 SAPPHIRE BLUE/WHITE	8-592 ROYAL BLUE/WHITE
8-622 RUBY/WHITE	8-642 RED/WHITE
8-652 TANGERINE/WHITE	8-762 YELLOW/WHITE
8-778 YELLOW/DK BROWN	8-854 DESERT SAND/BLACK
8-892 COFFEE BEAN/WHITE	8-962 JUNGLE GREEN/WHITE
8-992 TEAL/WHITE	

ENGRAVING STOCK PRICING

All of our engraving is now priced the same. The prices listed below apply to all of the sheets listed above, satins, mattes, metals or woods. Plus Delvie's Plastics offers engraving stock in both full sheet and quarter sheet sizes. All sheets are 1/16" thick.

Full sheet size on all of the above material is 24" x 48"

1 - 5 Sheets	\$35.00
6 - 9 Sheets	32.00
10 - + Sheets	29.00

All sheet can be mixed for quantity discounts.

Another option, order our materials in quarter sheets (12" x 24"). This allows you to get more colors without overstocking your shop. Any color we offer.

12" x 24"	\$9.00/Each
-----------	-------------

HEAVY ENGRAVING STOCK

We stock the following materials in 1/8" thickness, with the surface color on both sides. This is a 3 ply material with the surface color on both sides of the material. While our color selection is not as good as our 1/16" material some programs prefer the 1/8" thickness for their CNC programs.

COLOR SURFACE/CORE
143-204 WHITE/BLACK/WHITE
143-402 BLACK/WHITE/BLACK
143-512 BLUE/WHITE/BLUE
143-602 RED/WHITE/RED
143-932 GREEN/WHITE/GREEN
743-102 WALNUT/WHITE/WALNUT
Price Per Sheet

CNC CUTTER BITS

Our CNC cutter bits are specially made to cut lettering into engraving stock. You can use them with several types of engraving and CNC machinery.

1/8" Dia. shank x 1" Length sharpened to 1/64", 1/32", 1/16", 3/32", 1/8" widths. Please specify cutting width when ordering

\$13.50/Each

50	\$245.46	\$385.36

Note: Sizes over 50 sq. inches will be quoted on request.

For plates not beveled deduct 20% from the prices shown.

Minimum order: Custom cut pieces are cut from a 24" strip of material. Orders will be filled in increments of the 24" length of material divided by the width of the cut piece.

Example: 1" x 3" 24"/1 = 24 pcs minimum and sold in lots of 24 pcs. (24, 48, 72, 96, etc.)

Example: 3" x 8" - 24"/3 = 8 pc minimum and sold in lots of 8 pcs. (8, 16, 24, 32, 40, 48 etc.)

Pressure Sensitive Adhesive:

Cut pieces:	\$.05 per sq inch
Full Sheets: (24" x 48")	12.00 sheet
Half Sheets: (24" x 24")	6.00 sheet
Quarter Sheets: (12" x 24")	3.00 sheet

Drilled Holes:

1 - 2 holder per plate	\$.10 per plate
3 - 4 holes per plate	.14 per plate

(Please give specific placement and diameter of holes)

MACHINABLE WAX

Machinable Wax is a state of the art material that unlike metal, plastic or wood, features all the properties necessary to meet the requirements of CNC and CAD/CAM program proofing. It's very machinable, dimensionally stable, safe to work with and very economical because it can be reclaimed and remachined.

Safe, non-toxic and self-lubricating, Machinable Wax machines at any speed without producing sharp chips or hazardous dust particles. And, with a flash point of 575F, there's no danger of heat fusion during high rates of machining speeds and feeds. Unlike most plastics, Machinable Wax will not release any offensive or hazardous dust particles or odors during or after machining. Unlike metal, our wax does not require coolants for machining and it will not produce sharp machine chips which otherwise could be unsafe due to splashing. Coolants also obscure visual inspection during machining.

Self-Lubricating! You can easily machine our Machinable Wax without the need for costly and messy coolants or lubricants, because MACHINABLE WAX is self-lubricating, non-abrasive and it will not fuse when machined at high-end spindle rpm's and feed rates. Our wax will not gum up on tool bits. It is not cellular, grainy, or abrasive so voids in machined surfaces, common with plastics and woods. Tool wear is also negligible.

ASSORTED BLOCKS

1.5" x 3" x 7"	\$10.00
3" x 3" x 7"	20.00
2" x 6" x 6"	20.00

2" X 12"	10.00

CUT PIECE SPECIALS

Delvie's Plastics cuts and fabricates thousands of pieces of engraving stock each month and we often have overruns. We are offering these overruns at greatly reduced prices in an assortment of colors, sizes and thicknesses.

1/16" ENGRAVING ASSORTMENT 1" X 3"

Ideal for practice tags. In this special you get an assortment of tags, various colors, in metals, satins and woods. Cut to 1" x 3", beveled and unbeveled.

Beveled

Lot E/S #1 Assortment 1/16" 100 Pcs	\$13.00
Lot E/S #2 Assortment 1/16" 500 Pcs	56.00
Lot E/S #3 Assortment 1/16" 1000 Pcs	95.00

Unbeveled

Lot E/S #4 Assortment 1/16" 100 Pcs	\$8.50
Lot E/S #5 Assortment 1/16" 500 Pcs	37.00
Lot E/S #6 Assortment 1/16" 1000 Pcs	68.00

1/8" ENGRAVING ASSORTMENT 1" X 3"

This is the same great assortment as in our 1/16" material but in a thicker tag. Again, the same great colors, same great assortment. Beveled and unbeveled.

Beveled

Lot E/S #13 Assortment 1/8" 100 Pcs	\$30.00
Lot E/S #14 Assortment 1/8" 500 Pcs	135.00
Lot E/S #15 Assortment 1/8" 1000 Pcs	225.00

Unbeveled

Lot E/S #16 Assortment 1/8" 100 Pcs	\$20.00
Lot E/S #17 Assortment 1/8" 500 Pcs	85.00
Lot E/S #18 Assortment 1/8" 1000 Pcs	150.00

1/16" ENGRAVING ASSORTMENT 1-1/2" X 3"

Need a larger practice tag? Our 1-1/2" x 3" tag is an ideal choice. Same great color assortment but a larger tag.

Beveled

Lot E/S #7 Assortment 1/16" 100 Pcs	\$18.00
Lot E/S #8 Assortment 1/16" 500 Pcs	82.00
Lot E/S #9 Assortment 1/16" 1000 Pcs	145.00

Lot E/S #24 Assortment 1/8" 1000 Pcs	225.00

ROWMARK *LASERMARK*

Our newest line of engraving materials, the Lasers. We have had many requests for laser materials in the past year and now Delvie's Plastics has teamed up with Rowmark to offer the finest line of engravable laser material in the world. Rowmark is known for manufacturing some of the best engraving materials in the country. Rowmark's newest addition to the most extensive line of engraving materials in the world. This is the choice for programs that have laser engraving systems. Laser engravers do not do a very good job with standard engraving materials but **LASERMARK** laserable acrylic material is specially designed for a crisper, cleaner burn and ultra-fine laser lettering, logos and vector cutouts.

WALL AND CORRIDOR BRACKETS

Sign holders for the door or wall are available in many stock sizes and lengths. Holders are highly polished and anodized in Polished Rose Gold or Silver, enhancing any decor. Styles and sizes are indicated by part number and length.

Mounting holes are standard in all insert sizes from 1 1/4" to 4". Custom lengths and four custom colors, JRS Bronze, Matte Black, Satin Silver, and Yellow Gold are available by special order at no extra cost and 7 to 10 day production time. Arch Bronze, Satin Yellow Gold, and Satin Rose Gold are also available upon request for a 20% up charge and 3 to 4 week delivery.

A 36" length is provided without holes in the styles and sizes below for your custom sign requirements. There is a minimum of five 36" lengths per order in any size combination.

BADGE FINDINGS

Clasp Pin Back with Cementable Vinyl Back - This is a metal pin back with a vinyl back to attach with glue to the name tag. Use our Weld On #4 cement as a solvent. (BADGE-PINBACK)

Pricing:

100 Pcs	250 Pcs	500 Pcs	1000 Pcs
\$25.00/100 Pcs	20.00/100 Pcs	17.00/100 Pcs	12.00/100 Pcs

Clasp Pin Back with Pressure Sensitive Back - This is the same metal pin back with a vinyl back but with a pressure sensitive backing that allows you to attach the pin back by simply peeling off the paper liner and attaching the pin back to the badge. This is a super strong permanent adhesive. (BADGE-PINBACKPS)

Pricing:

100 Pcs	250 Pcs	500 Pcs	1000 Pcs
\$38.00/100 Pcs	30.00/100 Pcs	22.00/100 Pcs	15.00/100 Pcs

White Molded Pin Back - This is our most secure safety pin back. The white molded back can be glued to the badge back or we offer the molded pin with a foam pressure sensitive packing, the prices per pin back are the same. Use our Weld On #4 cement to glue the pin back on. (Please specify stick on or glue on when ordering.) (BADGE-PINBACKMOLDED)

Pricing:

100 Pcs	250 Pcs	500 Pcs	1000 Pcs
\$18.00/100 Pcs	13.50/100 Pcs	11.00/100 Pcs	8.00/100 Pcs

Magnetic Badge Holder - Attach the pressure sensitive metal plate to the back of the name badge and the magnetic plate holds the badge on the shirt with clips or pins. No more holes in fine fabrics. This is a super strong magnetic badge holder and works with heavy fabrics including suit coats. The back of the magnetic plate is marked "Caution Magnetic" for safety. (BADGE-MAGNETIC)

Pricing:

Each	100 Pcs	250 Pcs	500 Pcs
\$.95/Each	.60/Each	.50/Each	.40/Each

Magnetic Badge Holder - with a plastic casing. Our most popular badge back. Attach the pressure sensitive metal plate to the back of the name badge and the magnetic plate holds the badge on the shirt with clips or pins. No more holes in fine fabrics. This is a super strong magnetic badge holder and works with heavy fabrics including suit coats. The back of the magnetic plate is marked "Caution Magnetic" for safety. (BADGE-MAGNETICENCASED)

Pricing:

Each	100 Pcs	250 Pcs	500 Pcs
\$.95/Each	.65/Each	.58/Each	.50/Ech

BADGE FINDINGS
